## Report on Operating and Management Results

Twenty-Fifth Fiscal Period  
Semi-Annual Report

January 1, 2014 – June 30, 2014

Japan Prime Realty Investment Corporation

## Japan Prime Realty Investment Corporation

Japan Prime Realty Investment Corporation (JPR) is a J-REIT having one of the largest asset holdings in Japan with a combined portfolio that is focused on office properties in Tokyo\* and complemented by urban retail properties.

Since its listing in 2002, JPR has steadily expanded its asset size while maintaining stable cash distributions. Going forward, JPR will endeavor to further improve the quality of its portfolio and manage its assets so that steady growth and enhancement of unitholder value is secured as it moves ahead.

\*"Office properties in Tokyo" represent office properties located in Central Tokyo (Chiyoda, Chuo, Minato, Shinjuku, Shinagawa and Shibuya Wards) and Greater Tokyo (all other areas of Tokyo, Chiba, Kanagawa and Saitama Prefectures) (the same applies throughout this report).

## Features of JPR

Dear Investors,

We at Japan Prime Realty Investment Corporation (JPR) would like to express our sincere gratitude for the continued loyal patronage you have extended to us.

Having settled the 25th fiscal period (January 1, 2014 – June 30, 2014) at the end of June 30, 2014, we renew our heartfelt appreciation for your advocacy and encouragement.

Going forward, JPR will continue working with Tokyo Realty Investment Management, Inc. (TRIM), to which we entrust asset management, to realize stable growth of our portfolio over the medium to long term while taking into full account the governance of JPR as an investment corporation.

We ask for your continued understanding and support of our operations.

## 2. Message from Asset Manager

### **Satoshi Okubo**

President and Chief Executive Officer (CEO)  
Tokyo Realty Investment Management, Inc.  
(the Asset Manager of JPR)

#### **Career Highlights**

- 2010: Took office as President and CEO of Tokyo Realty Investment Management, Inc.
- 2005: Appointed Director and Head of Kansai Branch Office, Tokyo Tatemono
- 1998: Appointed General Manager of Residential Management Department, Tokyo Tatemono
- 1977: Joined Tokyo Tatemono Co., Ltd.

Thanks to the recovery in the office property leasing market, revenues from the portfolio are on track to an upward trend.

We will aim to achieve the stable growth of JPR's cash distributions by steadfastly seizing opportunities that should lead to growth.

I would like to extend my heartfelt gratitude to you, our unitholders, for the support you have extended to Japan Prime Realty Investment Corporation (JPR).

In the 25th fiscal period that ended June 2014, we were engaged in reinforcing leasing and other activities to increase earnings, reduce costs and various other measures. These endeavors enabled the distribution per unit of JPR to reach ¥6,150, surpassing the results achieved for the previous fiscal period.

Let me give you an overview of the management results for the 25th fiscal period and the future outlook of JPR.

**Q1:** Can you brief us on cash distributions for the 25th fiscal period ended June 2014?

**A1:** Distribution per unit has reached ¥6,150, up ¥144 compared with the previous fiscal period.

Distribution per unit for the 25th fiscal period increased by ¥144 from the previous fiscal period to ¥6,150, as a result of our endeavors on implementing measures for improved profitability and cost reductions, among other measures. Furthermore, we forecast a distribution per unit of ¥6,180 for the next fiscal period ending December 2014, a further increase of ¥30 from the latest results, to mark the second consecutive period with a period-on-period increase.

### Changes in Operating Revenues and Distribution per Unit

**Q2:** What trends do you see in the office property leasing market in Tokyo?

**A2:** The occupancy rate has improved, and rents are also rising.

In the office property leasing market in Tokyo, new demand has expanded while new supply has been rather small, leading to the improved supply and demand balance. With conclusion of large contracts taking place, the occupancy rate has continued to rise for 12 consecutive months (as of the end of June 2014).

As for rents, new rents for large-scale office properties have shown an increasingly stronger upward trend, having a favorable influence that has been spreading in the market as a whole.

### Changes in Average Rent and Occupancy Rate in Tokyo CBDs

(Source) Prepared by TRIM based on the Office Data (Tokyo CBDs) publicized by Miki Shoji Co., Ltd.

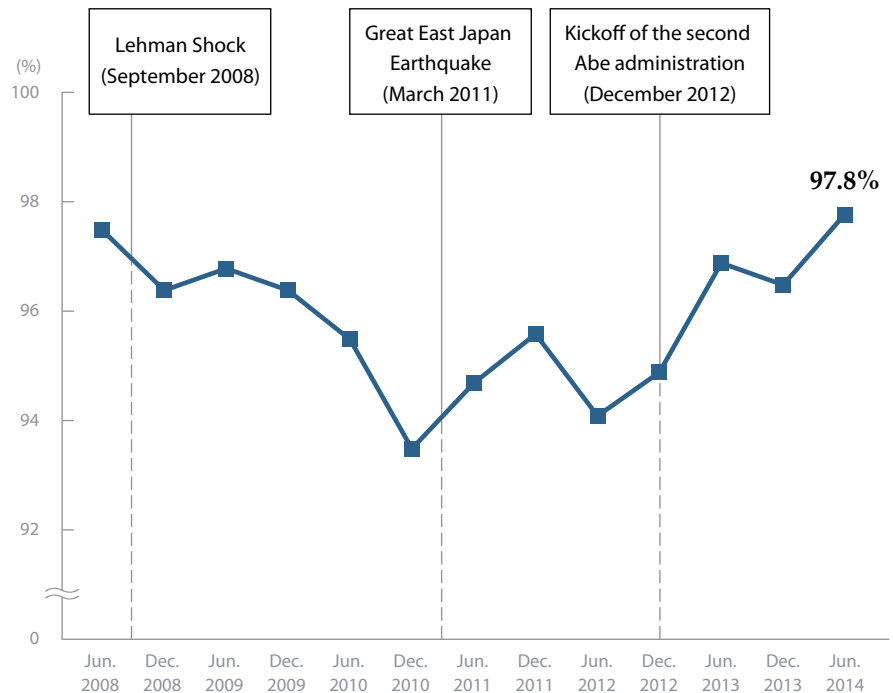

**Q3:** What is the backdrop to the 1.3 percentage point increase in JPR’s occupancy rate?

**A3:** A significant improvement was achieved in the occupancy rate of office properties in central Tokyo.

Our measures to reinforce leasing activities proved effective, allowing us to conclude more lease contracts than anticipated. This was a factor in the occupancy rate increasing by 1.3 percentage points to 97.8% at the end of the 25th fiscal period, finally regaining the pre-global financial crisis level. In particular, the figure for office properties in central Tokyo improved significantly by 3.9 percentage points to 97.9%, making a large contribution to the increase in the occupancy rate of the entire portfolio.

With regard to rents, we are also in a situation in which it is gradually becoming possible for us to raise rents, both in new contracts and contract renewals, and we see revenues from the portfolio turning to an upward trend.

**Changes in Occupancy Rate at Period End**

**Q4:** Can you tell us about your efforts on external growth?

**A4:** We will continue to firmly maintain the stance of vigorously selective investment in blue-chip properties.

In the current for-sale real estate market, property prices are set at even higher levels, as sellers seek higher prices in expectation of the recovery in rental revenues and other reasons. Competition over acquisitions has intensified, particularly for blue-chip office properties in Tokyo. During the 25th fiscal period, we investigated acquisitions centering on office properties in central Tokyo and retail properties in the Tokyo metropolitan area, but no acquisition was closed and completed. We will continue to firmly keep the stance of vigorously selective investment by utilizing sponsor support and other measures, in order to purchase blue-chip properties without being involved in excessive competition.

**For-sale market situation**

- Intensified competition over property acquisitions
- Reduced availability of blue-chip properties

**Diverse acquisition channels**

- Sponsor support
- Proprietary information channels
- Utilization of preferential negotiation rights

**Investment stance**

- Vigorously selective investment in blue-chip properties
- Utilization of negotiated transactions

**Q5:** Can you tell us about the refinancing conducted in the 25th fiscal period?

**A5:** We worked on further reduction of financial costs and a shift to long-term, fixed interest rate debts.

The fund procurement environment has remained favorable due to the monetary easing measures taken by the Bank of Japan. Given such a situation, we endeavored to further reduce financial costs and promote a shift to long-term, fixed interest rate debts through fund procurement by borrowings and issuance of investment corporation bonds.

#### Comparison Before and After Refinancing in the 25th Fiscal Period

Implementation of refinancing	Borrowings and investment corporation bonds	Average maturity	Average interest rate
Before refinancing	16,903 million yen	<b>6.4 years</b>	<b>2.40%</b>
		<b>+ 2.2 years</b>	<b>- 1.33%</b>
After refinancing	16,500 million yen	<b>8.6 years</b>	<b>1.07%</b>

**Q6:** What types of investors own JPR's investment units in large volume?

**A6:** By percentage of unitholders, financial institutions have a high unitholding ratio.

Presumably, there are the following three factors in the backdrop of the high unitholding ratio of financial institutions.

- 1) High credit ratings (AA ratings)
- 2) Large market capitalization (299.8 billion yen as of the end of June 2014)
- 3) Stable distributions per unit (stable distribution per unit at the 6,000 yen level for 5 consecutive periods)

Going forward, Japan's Government Pension Investment Fund (GPIF), one of the world's largest pension funds, will start investing in J-REITs. We will continue our efforts on steady growth of cash distributions so that we can meet the expectations of such new investor classes as GPIF.

### Portfolio Management Standards

#### Target investment ratio by area

**Tokyo: 80 - 90%**  
**Other Cities: 20 - 10%**

#### Target investment ratio by asset class

**Office: 70 - 90%**  
**Retail: 30 - 10%**

(Note) The figures in the graph to the left show the investment ratios, which represent the ratios of the total acquisition price of properties in respective categories to the total acquisition price of the entire portfolio, rounded to the first decimal place.

50	52	51	53	55	56	56	57	58	59	60	62	62
537	499	476	476	460	479	493	501	502	534	564	610	628
383,491	383,215	393,532	400,751	410,326	420,544	421,371	423,311	434,340	450,943	460,452	467,207	467,175
7,122	7,092	3,731	6,933	6,770	5,680	5,611	5,876	6,430	6,093	6,031	6,006	6,150

- (Note 1) The asset size represents the aggregate acquisition price of the respective properties in JPR's portfolio as of the relevant date, rounded off to the nearest 100 million yen.
- (Note 2) The number of tenants at end of period is counted as follows: when a single tenant leases multiple rooms, it is counted as one if the tenant uses the same property. If the leased rooms are in multiple buildings, the tenant is counted in plural.
- (Note 3) For Shinjuku Square Tower, each compartmentalized owner leases respective exclusive space to Tokyo Tatemono Co., Ltd. in a lump sum, and Tokyo Tatemono subleases the space to sublessees. Accordingly, the leasable floor space of the building is calculated by multiplying the total contracted space of offices, shops and warehouses that are leased by Tokyo Tatemono and can be sublet, by JPR's rent distribution rate (39.70457% through June 30, 2008 and 40.31465% since the 14th fiscal period in accordance with the additional acquisition in September 2008), while the leased floor space for calculating the occupancy rate is calculated by multiplying the floor space sublet to sublessees by the rent distribution rate. Both figures are rounded to the second decimal place.  
In addition, the number of the sublessees is deemed to be the number of tenants for the building.
- (Note 4) The tenants of Shinjuku Center Bldg., Rise Arena Bldg. and Kawasaki Dice Bldg. have sublet space to sublessees and lease agreements have been executed where the rent paid by the tenants fluctuates in accordance with the lease conditions of the sublessees. Accordingly, the total leasable floor space, total leased floor space and the occupancy rate of the building indicate those for the sublessees of the tenants, and the number of the sublessees is deemed as the number of its tenants.
- (Note 5) When the contracted floor space and the floor space for calculating rents differ, the latter was treated as the leased floor space through the 10th fiscal period. Since the 11th fiscal period, however, the contracted floor space has been used as the leased floor space.
- (Note 6) The occupancy rate at end of period has been rounded to the first decimal place.
- (Note 7) The total leasable floor space has been rounded off to the nearest integer.

## 2. Investment Strategy

JPR is resolved to continuously work on investment focused on office properties in Tokyo in order to enhance its growth potential over the long term, while conducting vigorously selective investment in retail properties as well as office properties in regional cities that are expected to generate relatively high yields.

### Focused investment in office properties in Tokyo

#### Improve the quality of the portfolio by making investment focused on office properties in Tokyo that are expected to contribute to long-term growth

Compared with other regional cities, Tokyo allows expectations for more stable occupancy and higher rent levels, and is believed to offer larger rooms for an upward turn of rents when the leasing market starts to recover. Looking ahead, JPR will continue to make investment focused on office properties in Tokyo, with an aim to further improve the quality of its portfolio and enhance its growth potential in the recovery cycle of the market.

### Vigorously selective investment in retail properties as well as office properties in regional cities

#### For retail properties as well as office properties in regional cities, which allow JPR to expect higher yields, work to invest in strictly selected blue-chip properties that can keep stable revenues at a certain level

Retail properties as well as office properties in regional cities tend to have relatively higher yields than office properties in Tokyo, although there are some properties that are somewhat less stable in terms of earnings subject to the market situation. While securing growth potential by making focused investment in office properties in Tokyo, JPR will make vigorously selective investment in urban retail properties with long-term, fixed-rent contracts and in large office properties in regional cities having a high competitive advantage in the areas, in order to complement the stability of earnings from the entire portfolio.

## Changes in Investment Ratios by Asset Class and Area

Over the last five years, JPR made investments in 13 office properties in Tokyo totaling 99.0 billion yen (acquisition price), enhancing the quality of its portfolio.

End of 1st Fiscal Period (June 30, 2002)

End of 25th Fiscal Period (June 30, 2014)

Increase in investment ratio of office properties in Tokyo through focused investment:

**+23.7%**

(Note) The figures in the graphs show the investment ratios, which represent the ratios of the total acquisition price of properties in respective categories to the total acquisition price of the entire portfolio, rounded to the first decimal place.

## Portfolio Management Standards of JPR

### Target investment ratio by area

**Tokyo: 80 - 90%**  
**Other Cities: 20 - 10%**

### Target investment ratio by asset class

**Office: 70 - 90%**  
**Retail: 30 - 10%**

In the for-sale real estate market, transactions of blue-chip properties have been rather limited. Given the situation, JPR will work to invest in blue-chip properties by fully implementing various acquisition strategies based on its high sourcing abilities while utilizing sponsor support.

**Utilization of sponsor support from the Fuyo Group companies including Tokyo Tatemono**

Supply of blue-chip properties among office properties in Tokyo is still inadequate in the for-sale real estate market, and their acquisition opportunities are rather limited. JPR will take advantage of support from Tokyo Tatemono Co., Ltd. and other sponsors to secure opportunities to invest in blue-chip properties at reasonable price levels without being exposed to excessive competition in the market.

**Investment strategies based on diversified property acquisition methods and high sourcing abilities**

To acquire properties from third parties other than the sponsors, JPR exercises its high sourcing abilities and takes advantage of various information channels to make access to wide-ranging property information. For properties with co-ownership or compartmentalized ownership, JPR implements various methods to acquire properties, including acquisition of additional equity by utilizing preferential negotiation rights.

**Cases in which JPR Acquired Properties by Utilizing Sponsor Support**

JPR has displayed its strength of having sponsors comprising real estate developers, a general contractor and financial institutions in acquiring blue-chip properties.

<Sponsors>

The Otemachi Tower  
(Land with Leasehold Interest)

The Otemachi Tower (Land with Leasehold Interest) was acquired from an SPC in which Tokyo Tatemono and Taisei Corporation had equity interests.

Yakuin Business Garden

Yakuin Business Garden was acquired from an SPC in which Tokyo Tatemono has equity interests.

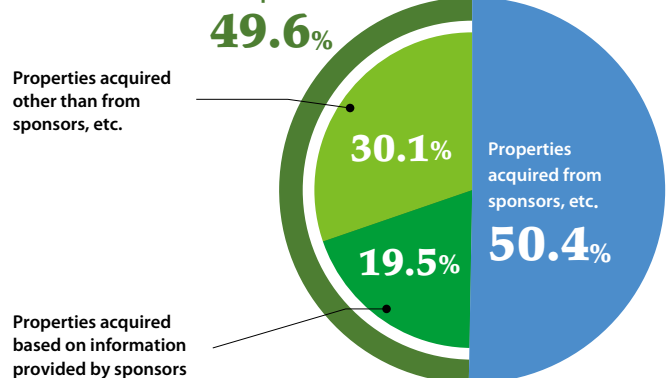

Japan Prime Realty Investment Corporation  
(securities code: 8955)

**Property Acquisition Results by Channel**

At JPR, the ratio of properties acquired from its sponsors, etc.<sup>(Notes 1 and 2)</sup> and that of properties acquired from third parties (total of properties acquired based on the information provided by the sponsors and those acquired other than from the sponsors, etc.) are almost equal, standing at 50.4% for the former and 49.6% for the latter (on an acquisition price basis).

JPR will work to increase property acquisition opportunities and conduct vigorously selective investment in blue-chip properties by building sourcing abilities on its own instead of depending solely on sponsor support.

**Transactions with third parties**

(Note 1) Sponsors, etc. represent the five sponsor companies of JPR, their affiliate companies and special purpose companies (SPCs) in which the sponsors have made equity investment.  
 (Note 2) Sompo Japan Insurance Inc. was renamed Sompo Japan Nipponkoa Insurance Inc. as of September 1, 2014 in accordance with the merger with NIPPONKOA Insurance Company, Limited.

### 3. Operational Strategy

JPR endeavors to implement its leasing strategies focused on maintaining and increasing the occupancy rate, with an aim to keep revenues from the portfolio stable in a continuous manner.

<b>Organizational reinforcement of leasing activities</b>	Tokyo Realty Investment Management, Inc. (TRIM) has established a group that supervises leasing, which implements leasing strategies that are based on property characteristics. Endeavors are being exerted to enhance the leasing framework by not only reinforcing coordination with property management companies but also receiving support on leasing and obtaining market information from major brokerage firms, so that JPR can provide lease terms and conditions that take into account the market conditions, accelerate decision-making and take other measures to strengthen leasing.
<b>Maintenance and improvement of tenant satisfaction</b>	TRIM periodically conducts questionnaire surveys to tenants, and works to improve tenant satisfaction by grasping comments, requests and other feedback from tenants and promptly responding. By doing so, TRIM aims to prevent move-outs of existing tenants and encourage them to expand office spaces in the same buildings or the upward revision of rents, so as to secure stable earnings of JPR over the medium to long term.
<b>Strategic value enhancement works</b>	TRIM has established a group dedicated to construction management, reinforcing its responses to business continuity plans, promotion of renovations for energy-efficiency and other initiatives that are strongly requested by society. In addition, while working to enhance NOI and tenant satisfaction, TRIM strategically conducts value enhancement works that should strengthen competitive advantages of properties as well as help attract tenants.

### Changes in Occupancy Rate

Endeavors to reinforce leasing activities and enhance tenant satisfaction successfully generated results, with the period-average occupancy continuing to rise since the 23rd fiscal period and standing at a high level of 97.0% in the 25th fiscal period.

### Examples of Renewal Works

JPR has been strategically conducting value enhancement works that should lead to invitation of new tenants and improvement in tenant satisfaction.

Examples of works conducted in the 25th fiscal period include renewal works at Kawaguchi Center Building and Tokyo Tatemono Honmachi Building, centering on refurbishment of their interior furnishings at the common areas of each floor. At Kawaguchi Center Building, efforts were made to enhance the high-grade atmosphere through such measures as replacing carpet tiles and affixing DI-NOC sheets to entrance and exit doors, resulting in high appreciation by the tenants. At Tokyo Tatemono Honmachi Building, interior renovations were conducted on the walls of the elevator hall. The work used high-grade, wood-pattern wall materials, which consequently helped enhance customer satisfaction.

## 4. Financial Strategy

JPR is engaged in conducting financial operations in a stable and sound manner, such as working to lengthen the average maturity of debts while maintaining the ratio of long-term, fixed interest rate debts as well as conservatively controlling the ratio of interest-bearing debts (LTV).

<b>LTV</b>	JPR is engaged in conservative financial operations, setting the ceiling of LTV at 55% as a rule and working to control the ratio at 50% or lower in practice.
<b>47.3%</b>	
<b>Ratio of long-term, fixed interest rate debts</b>	JPR keeps a high ratio of long-term, fixed interest rate debts under the basic policy of procuring funds through long-term, fixed interest rate debts, with an eye on reducing risks of rising interest rates.
<b>97.2%</b>	
<b>Average interest rate</b>	JPR endeavors to reduce financing costs, taking advantage of the favorable fund procurement environment to the utmost.
<b>1.23%</b>	
<b>Average maturity</b>	JPR works to lengthen the average maturity of debts under the basic policy of procuring funds with longer borrowing periods, while remaining attentive to the diversification of repayment and redemption dates.
<b>3.7 years</b>	

## Status of Corporate Credit Ratings Assigned to JPR (End of 25th Fiscal Period)

JPR maintains high, AA-rank credit ratings, with recognition given to its stable and sound financial operations.

<b>AA-</b>	<b>A</b> (Long-term)	<b>A-1</b> (Short-term)

## Changes in Average Interest Rate and Average Maturity

JPR endeavors to reduce financing costs and keep financial stability by lowering the average interest rate and lengthening the average maturity.

## Diversification of Repayment Dates of Interest-Bearing Debts

JPR works to mitigate refinance risks by establishing a commitment line totaling 28 billion yen while having repayment dates of debts more diversified.

## 5. Initiatives on Governance

In the belief that it is essential to secure sound and efficient operations of JPR in order to realize its continuous growth, consistent efforts have been made to reinforce and sustain corporate governance of JPR and TRIM, the Asset Manager.

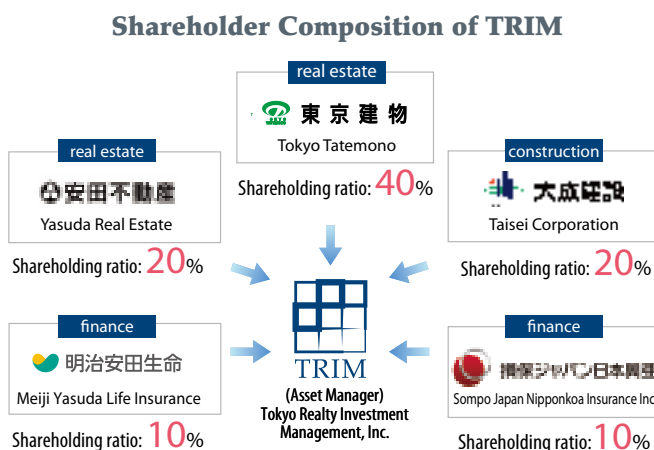

### Highly Independent Board Composition

- At JPR, the executive officer as well as the supervising officers have no concurrent assignment as officer of TRIM so as to firmly secure the independence of JPR, the investment corporation.
- The JPR officers comprise attorneys and a certified public accountant with various experiences and high expertise, who have a thorough knowledge of the REIT industry as well.

Members of the Board of JPR	
Executive Officer:	Hirohito Kaneko (attorney)
Supervising Officer:	Sosuke Yasuda (certified public accountant)
Supervising Officer:	Masato Denawa (attorney)

### Diversified Shareholder Composition and Reinforced Independence

- With the sponsors comprising five companies, the diversified shareholder composition also contributes to securing the independence of the Asset Manager.
- TRIM President and CEO has assumed office after having his employment transferred to TRIM, instead of being seconded from the sponsor company he belonged to.
- The Compliance Office general manager in charge of internal control is a career employee, not seconded from the sponsor company he belonged to.

### Decision Making Based on Stringent Processes

- Upon making decisions on property acquisitions, asset management and other issues, TRIM conducts stringent screening and takes other procedures from various perspectives through designated committees and other institutions.
- In particular, material transaction matters conducted with the sponsors, etc. are screened and verified by the Compliance Committee as to their adequacy and rationality. The Committee employs unanimous vote for approvals in principle.
- An outside attorney has been appointed as a special member of the Compliance Committee.

#### Members of the Compliance Committee of TRIM

## 6. Initiatives on Environmental Friendliness

From early on, JPR has implemented various initiatives on environmental friendliness.

JPR has proactively worked on effective reduction of energy costs, enhancement of greening in consideration of the urban environment and other measures under the basic concept of “environmentally friendly buildings.” Such endeavors have also been recognized by external organizations.

### Acquisition of DBJ Green Building Certification

- JPR has obtained DBJ Green Building Certification, a system by Development Bank of Japan Inc. (DBJ) to certify real estate properties evincing high environmental and social awareness, for multiple properties it owns.

#### DBJ Green Building Certification

DBJ awards five levels of certification (Platinum, Gold, Silver, Bronze and Certified) to office buildings in accordance with the degree of environmental and social awareness they demonstrate.

### Continuous Participation in GRESB Survey

- JPR has participated in the GRESB Survey, which analyzes and evaluates environmental considerations and sustainability, since 2011 and has been recognized each time for its approach to environmentally-friendly initiatives.
- JPR believes that its endeavors have been recognized as a result of having diligently worked to reduce energy consumption by establishing a consistent system among all business partners involved in building operations, from the Asset Manager to property managers and building maintenance companies, under a clear environmental policy as well as asking for cooperation with tenants.

GRESB, which stands for Global Real Estate Sustainability Benchmark, is a benchmark system for analyzing and evaluating sustainability in terms of environmental friendliness and social nature. It is based on surveys conducted by a private sector group established primarily by major pension funds in Europe.

### Taking Advantage of Environmental Friendliness Know-How of Sponsors

- JPR and TRIM have consigned operations related to environmental laws and regulations to Tokyo Tatemono Co., Ltd., one of the sponsors, and established a system early on to receive know-how and advice from Tokyo Tatemono.
- TRIM has reinforced its initiatives on environmental friendliness by allocating dedicated staff to the section in charge of construction planning for the portfolio properties, bolstered by the technological know-how of Taisei Corporation, one of the sponsors.

## Property Acquired in the 26th Fiscal Period

### Shibadaimon Center Building (additional ownership)

A-25

(Note) The NOI yield of the property has been calculated by dividing the assumed income for 12 months based on the rent level, the occupancy rate and other factors upon acquisition, by the acquisition price.

Exterior appearance with tiled walls generating composure

Common areas with a sense of cleanliness, using white as the base color

Stone-clad entrance providing a high-grade atmosphere

JPR successfully achieved acquisition of additional ownership in an existing property it owns, securely seizing the opportunity in the real estate market becoming increasingly overheated.

## 8. Structure and History of JPR

### The Objective and Basic Characteristics of JPR

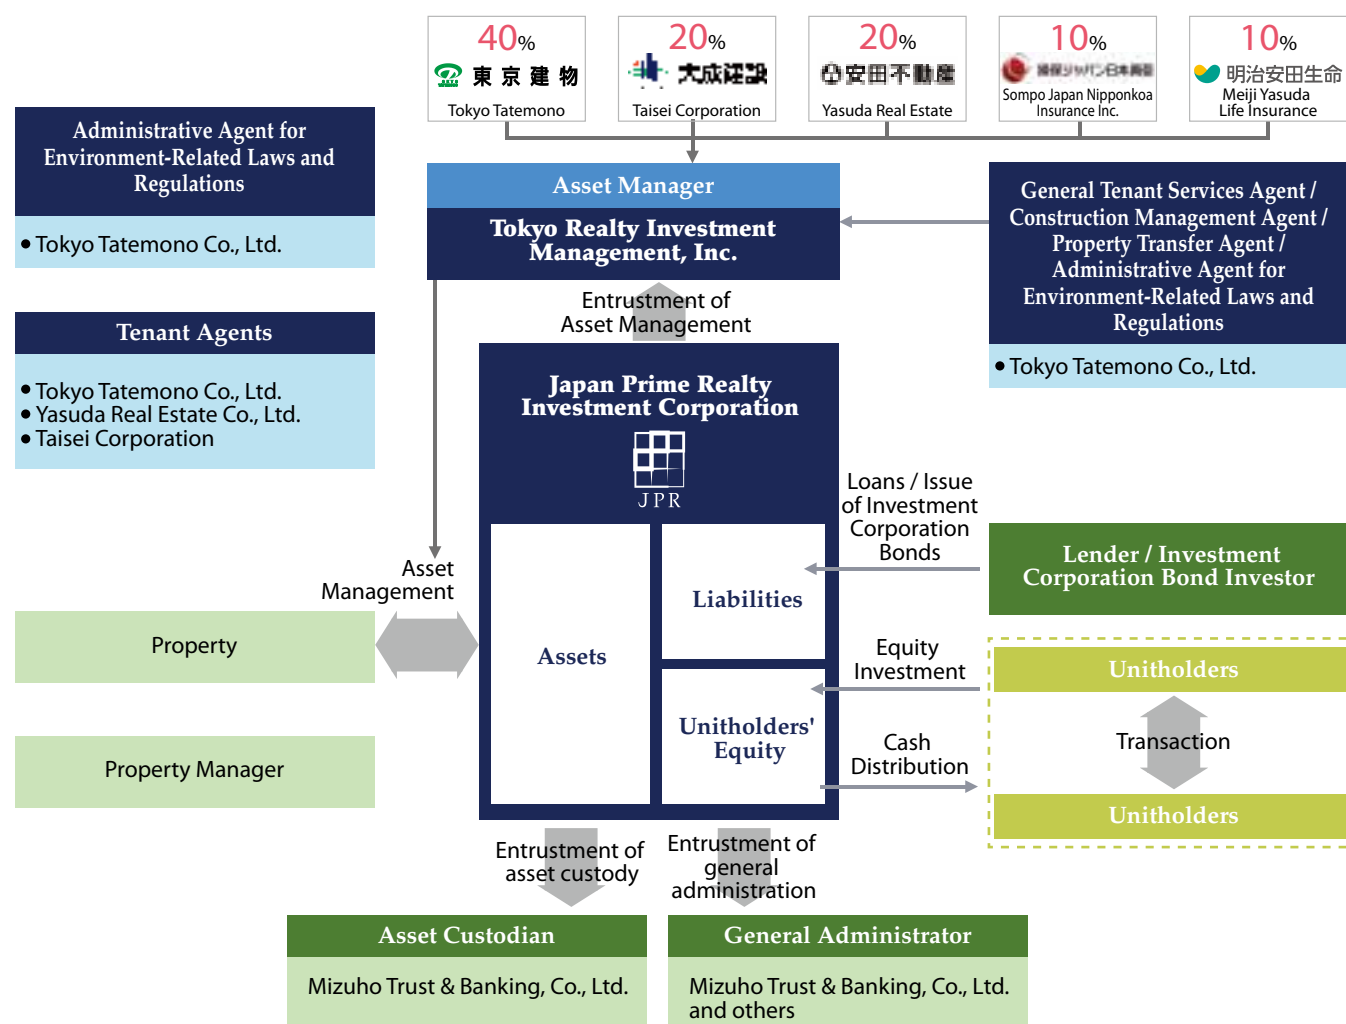

With the fundamental concept of “investment in urban commercial real estate,” JPR shall invest primarily in real estate, which comprises superior urban office buildings (urban commercial facilities), retail properties found in thriving commercial areas, multi-use facilities and the land on which they are located as well as in asset-backed securities that have such real estate as their primary investments.

In addition, in light of the returns and risks of these investment targets, JPR shall make it a basic policy to invest not only in Tokyo, but also strive to diversify into other regional cities so as to maximize the advantages of portfolio management.

### Corporate History

### Organization Chart

### Decision-Making Institutions for Investment Management

TRIM has established the Investment Committee as the institution to make investment management decisions, as well as the Investment Subcommittee (including the Due Diligence Subcommittee) and the Fund Management Subcommittee as subsidiary bodies of the Committee. These committees comprise the President and CEO, Investment Management Division General Manager, Financial Division General Manager, and Corporate Planning / Administration Division General Manager. The Compliance Office General Manager also participates in these committees to enhance confirmation in terms of legal compliance.

Matters concerning the targets and policies of investment management are decided by the Board of Directors, and matters concerning planning and implementation of asset management are decided by the Investment Committee. Matters concerning acquisition, disposition or management of individual properties are decided by the Investment Subcommittee or the Fund Management Committee, respectively. Moreover, the Board of Directors has final decision-making authority for acquisitions and dispositions of individual assets having over a certain amount of value.

## (2) 25th Fiscal Period Asset Management

### 1) Milestones of JPR

Japan Prime Realty Investment Corporation (JPR) was established on September 14, 2001 under the Act on Investment Trusts and Investment Corporations (hereafter, the Investment Trusts Act), and was listed on the Tokyo Stock Exchange Real Estate Investment Trust Section (securities code: 8955) on June 14, 2002 with 289,600 outstanding investment units. Subsequently, JPR conducted five public offerings and other equity financing measures, with the number of investment units issued and outstanding totaling 825,000 units at present. JPR has assigned the asset management of its portfolio to Tokyo Realty Investment Management, Inc. (hereafter, the Asset Manager), through which JPR aims to maximize unitholder value by efficiently managing the portfolio primarily comprising office properties and retail properties.

### 2) Management Environment

During the 25th fiscal period, although there had been concerns that the economy might be adversely affected by the increase in the consumption tax, the slowdown following the tax rise was largely within expectation. Consumer spending was observed to pick up, given the solid employment environment, and private capital investment also showed an increasing tendency due to improvement in corporate performances and other factors. As such, the economy maintained a moderate recovery trend.

#### The Office Property Leasing Market

The supply and demand balance in the office property leasing market of the 23 wards of Tokyo further improved due to expansion in new demand, including increased office space within the same buildings, on top of new supply remaining small. Given this situation, the upward trend of the rent levels for new contracts has been strengthened for Class S and Class A buildings, and the positive impact is increasingly spreading through the entire market including Class B buildings, such as the rent-free periods granted to new tenants being reduced.

#### The Retail Property Leasing Market

There had been concerns about negative impacts of the consumption tax increase particularly on retail properties. However, such impacts that had been worried about were hardly found for urban retail properties in which JPR targets to invest, as tenants' needs to open stores remained strong. Urban retail properties in good locations, such as Ginza and Omotesando, have seen vacancies drop, with rents in the course of taking an upward turn and increasing.

#### The For-Sale Real Estate Market

The transaction volume expanded, including deals of large-scale projects, as initial public offerings and public offerings by REITs took place one after another against the backdrop of a favorable fund procurement environment. However, with a distinct trend of acquisitions of properties by REITs being made from their sponsors, the supply and demand situation in the for-sale real estate market is becoming increasingly tighter, mainly for quality properties. Because of the decreased cap rates, combined with expectations for recovery of rental revenues, the transaction price of real estate is being formed at an even higher level, and there is an expanding tendency to invest in projects located in regional cities.

### 3) Portfolio Management Status

#### New Property Acquisitions

JPR investigates possible investments mainly in office properties in the Tokyo area, plus retail properties and office properties in regional cities, with the primary aim of improving the quality and stabilizing earnings of the portfolio while paying attention to balancing diversification of the portfolio, both in terms of location and asset class.

During the 25th fiscal period, JPR investigated possible investments primarily in office properties in central Tokyo and retail properties in the Tokyo metropolitan area, but no acquisition was closed and completed. As a result, the balance of assets under management totaled 62 properties, or 404.7 billion yen on an acquisition price basis, as of the end of June 2014, with the total leasable floor space standing at 467,175 m<sup>2</sup> and the number of tenants reaching 628.

#### Operational Management of Portfolio

The vacancy rate in the office property leasing market showed a downward trend in the 25th fiscal period, given a more advanced improvement in the supply and demand balance in Tokyo and other areas. Under such circumstances, JPR endeavored to attract new tenants through strategic leasing activities and enhance the satisfaction of existing tenants by keeping close cooperation with property management companies and brokers, with an aim of enhancing earnings from the entire portfolio and improving occupancy rates. As a result, JPR successfully increased the occupancy rate at end of period to an even higher level of 97.8%, up 1.3 percentage points from the end of the 24th fiscal period.

In terms of property management, based on JPR's brand concept A/3S (Amenity/Service, Safety and Save Energy), JPR

continued to proactively implement value enhancement works based on tenant needs with the aim to create spaces where the workers feel satisfaction. As an endeavor to implement energy-saving measures, JPR conducted renovation of air-conditioning systems and replacement of lighting equipment in the common areas with LED lamps, which are expected to be effective for the endeavor, at its multiple properties.

In addition, JPR is proactively engaged in environmental friendliness, continuously working to obtain environmental certifications (the DBJ Green Building Certification<sup>\*1</sup> and the recognition by GRESB<sup>\*2</sup>).

\*1 The DBJ Green Building Certification is a certification system by Development Bank of Japan Inc., designed to select superior real estate that meets the demand of the times, with a purpose of promoting properties that are environmentally friendly, equipped to mitigate disaster and prevent crime, as well as meet the various social requirements surrounding real estate from stakeholders (“Green Buildings”)

\*2 GRESB, which stands for Global Real Estate Sustainability Benchmark, is a benchmark system for analyzing and evaluating sustainability of real estate companies, REITs and real estate private placement funds, in terms of environmental friendliness and social nature. It is based on surveys conducted by a group of the same name composed of more than 20 organizations worldwide such as European pension asset managers.

#### Fund Procurement

JPR is engaged in conservative financial operations, setting the ceiling of the interest-bearing debt ratio (hereafter the “LTV”) (Note 1) at 55% as a rule and working to control the ratio largely at 50% or lower in practice.

In debt financing, JPR continued to maintain financial stability by conducting bank borrowings at long-term fixed interest rates with an eye on reducing risks of rising interest rates while remaining attentive to the diversification of repayment dates, etc.

JPR established a commitment line with credit limit of 28 billion yen in order to reduce refinancing risks and secure stable fund procurement.

In the 25th fiscal period, JPR procured funds of 16.5 billion yen in total, including refinancing of loans and investment corporation bonds upon maturity. As a result, the balance of total outstanding borrowings as of the end of the fiscal period was 134.6 billion yen, with investment corporation bonds of 56.5 billion yen.

As of the end of the 25th fiscal period, JPR had LTV of 47.3%, long-term and fixed interest-bearing debt ratio (Note 2) of 97.2%, average interest rate (Note 3) of 1.23%, and average maturity (Note 4) of 3.7 years. Furthermore, the current portion of long-term interest-bearing debt was 32.3 billion yen.

The following represents the issuer ratings for JPR as of the end of this fiscal period.

#### Details of Corporate Credit Ratings as of June 30, 2014

Credit Rating Agency	Corporate Credit Rating
Rating and Investment Information, Inc.	AA- (Stable)
Standard & Poor's Ratings Japan K.K.	Long-term: A (Stable) Short-term: A-1

(Note 1) LTV: (borrowings + investment corporation bonds) / total value of assets

Total value of assets is calculated by adding or subtracting the difference between the appraisal value at end of period and the book value at end of period of the specified assets owned by JPR to the total assets.

(Note 2) Long-term and fixed interest-bearing debt ratio: long-term, fixed-interest interest-bearing debt / total interest-bearing debt

(Note 3) Average interest rate is arrived at by calculating a weighted average of interest rates for all interest-bearing debt as of the end of the 25th fiscal period based on the balance of each interest-bearing debt.

(Note 4) Average maturity is arrived at by calculating a weighted average of maturities from the end of the 25th fiscal period to the repayment deadlines for all interest-bearing debt based on the balance of each interest-bearing debt.

(Note 14) New investment units were issued through a third-party allotment at 188,222 yen per unit to partly fund acquisition of new specific assets and repay debts.

#### (4) Cash Distributions

With regard to the cash distributions, JPR decided to distribute part of the retained earnings brought forward that had been internally reserved through the 24th fiscal period, with the aim of having the profit distributions deducted as expenses based on application of the special provision on taxation of investment corporations (Article 67-15 of the Act on Special Measures Concerning Taxation) and in order to minimize the burden to unitholders incurred by accrual of corporate income tax, etc. As a result, the cash distribution per unit came to 6,150 yen for the 25th fiscal period.

#### (5) Future Management Policies and Vital Issues

As for the prospects of the Japanese economy, it is anticipated that private capital investment will increase in line with the recovery of corporate performances, while growth in external demand is also hoped for in accordance with the developed economies picking up. With the employment environment staying solid, consumer spending is also likely to grow in a virtuous circle of the economy if personal income continues to improve. On the other hand, disturbance in the overseas economies including geopolitical risks will remain to be a cause for concern.

In the office property leasing market, the general recovery in the market situation will presumably be a modest one for the moment, with polarization by property further advancing amid continued improvement in the supply and demand condition. In this regard, JPR believes it will be able to fully enjoy the positive impact of the market recovery as it has focused on improving tenant satisfaction through proactive implementation of value enhancement works and provision of elaborate management services. In addition, when conducting real estate transactions in the market where polarization of earnings by property is anticipated to further advance, it will become even more important to discern the growth potential of earnings of respective properties. Considering the situation in which cap rates are decreasing in an environment where monetary easing of a different dimension is being conducted, it is required to firmly keep the attitude of vigorously selective investment for implementing real estate investment that assumes possession of properties over the medium to long term.

Currently, REITs are positioned as powerful buyers of properties. However, their ability to procure funds will be largely affected by the interest rate levels. As such, JPR will keep attentive monitoring of the future trends in interest rates.

##### 1) Acquisition of New Properties and Asset Replacement

JPR will continue to make investment focused on the Tokyo office properties, with an aim to improve the quality of its portfolio and enhance its growth potential in the recovery cycle of the market. Real estate transactions are heading for expansion, as a decrease in purchase cap rate and expected cap rate levels has been observed in the transaction market along with the recovery in the office property leasing market conditions, and we believe property supply to the transaction market will increase going forward. As for retail properties as well as office properties in regional cities, which allow us to expect higher yields than the Tokyo office properties, JPR will work to invest in strictly selected blue-chip properties that can keep stable revenues at a certain level in order to complement the stability of earnings from the entire portfolio. JPR will strive to acquire new properties under reasonable terms by negotiating prices based on detailed market studies and property due diligence in considering properties.

JPR will continue to make investment decisions after a proactive collection of information through such sources as sponsors of the Asset Manager, accurately grasping market trends and carefully researching investment value, including the future potential of candidate properties.

Moreover, JPR will continue to investigate asset replacement, centering on properties that do not allow us to expect sustainable growth in the future or those that may be sold under favorable terms and conditions.

## 2) Management of Portfolio

JPR will aim to secure stable earnings over a medium to long term by working to prevent move-outs of existing tenants, encourage them to expand office spaces in the same buildings and renew contracts with upward revision of rents through endeavors to enhance tenant satisfaction, while continuously inviting new tenants through strategic leasing activities. Specifically, JPR will conduct management and operations based on the following policies:

- Strengthen coordination with property management companies and respective tenant brokers
- Propose leasing terms and conditions in anticipation of the recovery in the leasing market and accelerate decision making
- Conduct strategic value enhancement works with intent to improve property earnings and tenant satisfaction
- Reinforce responses to energy saving, business continuity plans and other matters commanding high social requests
- Conduct renovations to enhance energy-saving performance of the properties by utilizing the government's subsidy programs

## (6) Fund Procurement

JPR's fundamental policy for fund procurement calls for an efficient combination of long-term steady fund procurement and short-term fund procurement that emphasizes dynamism. In line with this policy, JPR will procure funds through unsecured and unguaranteed bank borrowings as well as the issuance of investment corporation bonds. JPR will continue to focus on the diversification of fund procurement means and consistently strive to diversify maturities.

## (7) Information Disclosure

JPR has positioned the proactive voluntary disclosure of information as one of its key management policies and will voluntarily disclose information believed to be essential to investment decisions concerning JPR, along with the timely disclosure of items to the Tokyo Stock Exchange. JPR is proactively employing its website ([http://www.jpr-reit.co.jp/jpr\\_e/](http://www.jpr-reit.co.jp/jpr_e/)) as well as its specified website for retail investors (<http://www.jpr-reit.co.jp/kojin/index.html> (Japanese only)) as a vital means for implementing voluntary disclosure, and JPR has promptly disclosed performance information and has provided videos on its primary properties using this site. We are committed to further enriching our information disclosure activities.

(Note 1) Rate of monthly contracted rent at end of period is the rate arrived at by dividing the monthly contracted rent at end of period for each property by the total rents for all properties.

(Note 2) The tenants of Shinjuku Center Bldg. and Kawasaki Dice Bldg. have sublet space to a sub-lessee and a lease agreement has been executed where the rent paid by the tenant fluctuates in accordance with the lease conditions of the sub-lessee. Therefore, the leasable floor space, leased floor space and occupancy rate entered for each of these buildings are the figures concerning the sub-lessee of the tenant.

## (3) Itemized Portfolio Assets

(Note 1) The number of tenants at end of period is counted as follows except for Shinjuku Square Tower, Shinjuku Center Bldg., the residential section of Science Plaza-Yonbancho Plaza, Rise Arena Bldg. and Kawasaki Dice Bldg.: when a single tenant leases multiple rooms, it is counted as one if the tenant uses the same property. If the leased rooms are in multiple buildings, the tenant is counted in plural.

The tenants of Shinjuku Square Tower, Shinjuku Center Bldg., the residential section of Science Plaza-Yonbancho Plaza, Rise Arena Bldg. and Kawasaki Dice Bldg. have sublet space to sublessees and lease agreements have been executed where the rent paid by the tenants fluctuates in accordance with the lease conditions of the sublessees and thus the numbers of sublessees have been entered as the numbers of tenants.

(Note 2) JPR does not disclose the rental revenues of the properties throughout the period and their ratio to total rental revenues due to inevitable reasons.

#### (4) Status of Other Assets

Beneficiary interests with real estate as major entrusted properties have been entered under (3) Itemized Portfolio Assets above.

## (6) Notes to Financial Statements

### (Basis of Presenting Financial Statements)

Japan Prime Realty Investment Corporation (JPR) maintains its accounting records and prepares its financial statements in accordance with accounting principles generally accepted in Japan (Japanese GAAP), including provisions set forth in the Financial Instruments and Exchange Act of Japan, the Act on Investment Trusts and Investment Corporations (ITA), the Companies Act and the related regulations, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

The accompanying financial statements are basically a translation of the financial statements of JPR, which were prepared in accordance with Japanese GAAP. In preparing the accompanying financial statements, certain reclassifications have been made to the financial statements issued domestically in order to present them in a format which is more familiar to readers outside Japan. In addition, the notes to financial statements include information which might not be required under Japanese GAAP but is presented herein as additional information.

JPR's accounting periods end at the end of June and December.

**(Financial Instruments)**

## 1. Matters Concerning Status of Financial Instruments

## (1) Policy on Handling Financial Instruments

In an aim to proactively expand asset size and maintain stable cash distributions to unitholders, JPR adopts the asset management policy of paying heed to efficiently combining the procurement of long-term funds that are stable and the procurement of short-term funds that emphasize flexibility.

There may be cases where JPR will engage in derivative transactions, but such will be limited to management for interest rate fluctuation risk and other hedging purposes. Please note that JPR is not engaged in derivative transactions at present.

## (2) Description of Financial Instruments and Associated Risks, and Risk Management Structure

Tokyo Realty Investment Management, Inc. (TRIM), the asset management company of JPR, strives for risk management by complying with the JPR Asset Management Guidelines and other rules and regulations. The following outlines the description of individual financial instruments and the associated risks, and the risk management.

Deposits are exposed to risks of failure of the financial institutions holding the deposits and other credit risks, but risks are managed through such measures as setting a minimum credit rating for the financial institutions holding the deposits.

Loans payable and investment corporation bonds are exposed to liquidity risks at the time of repayment/redemption, but liquidity risks are managed through such measures as procuring funds from the capital market by increasing capital, executing a commitment line agreement with the main lending financial institutions, and also having statements of cash receipts and disbursements prepared by the financial division.

## (3) Supplementary Explanation on Matters Concerning Estimated Fair Value, etc. of Financial Instruments

The estimated fair value of financial instruments, aside from values based on market price, include values based on reasonable calculations when there is no market price. Certain assumptions, etc. are used in calculating those values and there may be cases where the values will vary when different assumptions, etc. are used.

### 2. Matters Concerning Estimated Fair Value, etc. of Financial Instruments

The following are the carrying values and estimated fair values as of December 31, 2013 of financial instruments, and the difference between these amounts. Please note that the following table does not include those for which discerning of estimated fair value is recognized to be extremely difficult (please refer to Note 3).

(Thousands of yen)

	Carrying Value (Note 1)	Estimated Fair Value (Note 1)	Difference
(1) Cash and deposits	9,781,000	9,781,000	—
(2) Cash and deposits in trust	11,856,805	11,856,805	—
(3) Short-term loans payable	(2,000,000)	(2,000,000)	—

(6) Investment corporation bonds	(40,500,000)	(41,537,700)	1,037,700
(7) Long-term loans payable	(121,024,000)	(122,963,250)	1,939,250

The following are the carrying values and estimated fair values as of June 30, 2014 of financial instruments, and the difference between these amounts. Please note that the following table does not include those for which discerning of estimated fair value is recognized to be extremely difficult (please refer to Note 3).

(Thousands of yen)

	Carrying Value (Note 1)	Estimated Fair Value (Note 1)	Difference
(1) Cash and deposits	11,557,849	11,557,849	—
(2) Cash and deposits in trust	11,517,632	11,517,632	—

(5) Current portion of investment corporation bonds	(24,000,000)	(24,231,152)	231,152
(6) Investment corporation bonds	(32,500,000)	(33,577,888)	1,077,888
(7) Long-term loans payable	(126,358,000)	(128,680,083)	2,322,083

(Note 1) Liabilities are shown in parentheses.

(Note 2) Method of calculation of estimated fair value of financial instruments

(1) Cash and deposits, and (2) Cash and deposits in trust

As these financial instruments are settled within a short period of time, the estimated fair value is approximately the same as the book value and is thus stated at that book value.

(3) Short-term loans payable

As these financial instruments are settled within a short period of time and have floating interest rates, the estimated fair value is approximately the same as the book value and is thus stated at that book value.

(4) Current portion of long-term loans payable, and (7) Long-term loans payable

Of the estimated fair value of these financial instruments, the fair value of long-term loans payable with floating interest rates is based on the book value, as it reflects the market interest rate within a short period of time and thus is considered to be nearly equal to the book value. The fair value of long-term loans payable with fixed interest rates is based on the method of calculating by discounting the total amount of principal and interest by the rate assumed as being applicable in the event of a new drawdown corresponding to the remaining loan term.

(5) Current portion of investment corporation bonds, and (6) Investment corporation bonds

Of the estimated fair value of these financial instruments, those with market price are calculated based on market price and those with no market price are calculated according to the fair value of long-term loans payable with fixed interest rates in (4) and (7) above.

(Note 3) Financial instruments for which discerning of estimated fair value is recognized to be extremely difficult.

Tenant leasehold and security deposits and tenant leasehold and security deposits in trust that are deposited by lessees of lease rental properties are not subject to disclosure of estimated fair value because reasonable estimation of cash flows is recognized to be extremely difficult since there is no market price and also since it is difficult to calculate the actual deposit period from when lessees move in to when they move out. The following is the carrying value of tenant leasehold and security deposits, and tenant leasehold and security deposits in trust.

### Independent Auditor's Report

The Board of Directors  
Japan Prime Realty Investment Corporation

We have audited the accompanying financial statements of Japan Prime Realty Investment Corporation, which comprise the balance sheet as at June 30, 2014, and the statements of income and retained earnings, changes in unitholders' equity, cash distributions and cash flows for the six-month period then ended and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

#### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditor's Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. The purpose of an audit of the financial statements is not to express an opinion on the effectiveness of the entity's internal control, but in making these risk assessments the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Japan Prime Realty Investment Corporation as at June 30, 2014 and its financial performance and cash flows for the six-month period then ended in conformity with accounting principles generally accepted in Japan.

### Procedures for Change of Address

For filing or inquiring about a change of address, please contact your securities company with whom you have an account.

For unitholders who have not utilized Japan Securities Depository Center, Inc. before the dematerialization of stock certificates, accounts (special accounts) have been opened at Mizuho Trust & Banking Co., Ltd., JPR's transfer agent. For filing or inquiring about a change of address and other matters with regard to your special account, please direct them to the contact number indicated above.

### Cash Distributions

Cash distributions can be collected by bringing the "unitholder dividend receipt" to the nearest Japan Post Bank main or branch office, sub-branch office or post office (bank agent) in Japan. If the collection period has elapsed, please make your collection by designating the collection method on the back of the "unitholder dividend receipt" and mailing it to Mizuho Trust & Banking's Stock Transfer Agency Division. Cash distributions can also be collected at the main or branch offices of Mizuho Trust & Banking (excluding the Trust Lounge) and Mizuho Bank, Ltd.

If you wish to designate a transfer of cash distributions to a bank, etc., please contact your securities company (if you have an account with the company) or Mizuho Trust & Banking (if a special account has been opened), as in the case of changing the address, etc. above.

(Note) According to the provisions of JPR's Articles of Incorporation, cash distributions will become irretrievable if they remain unclaimed for three full years from the date on which payment commenced.  
We advise that cash distributions be received as soon as possible.
