<sup>2.</sup> With regard to the cash distributions for the 19th and 20th fiscal period, JPR decided to distribute part of the retained earnings brought forward that had been internally reserved through the 18th and 19th fiscal period. This was conducted with the aim of having the profit distributions deducted as expenses based on application of the special provision on taxation of investment corporations (Article 67-15 of the Act on Special Measures Concerning Taxation) and in order to minimize the burden to unitholders incurred by accrual of corporate income tax, etc. As a result, the cash distribution per unit came to 5,611 yen for the 19th fiscal period and 5,876 yen for the 20th fiscal period.

The above-mentioned forecasts are based on "Assumptions for the 21th Fiscal Period Forecast (January 1, 2012 – June 30, 2012)" as below. The aforementioned forecasts are based on assumptions and information available to management as of February 29, 2012.

As a result, actual operating revenues, operating income, ordinary income, net income, distribution per unit and exceeding profit distribution per unit will be subject to changes in market conditions.

Accordingly, the forecasts are not a guarantee of any cash distribution amounts.

# Assumptions for the 21th Fiscal Period Forecast (January 1, 2012 – June 30, 2012)

(January 1, 2012 – June 30, 2012)				
Item	Assumptions			
Period	21th fiscal period: January 1, 2012 to June 30, 2012 (investment period: 182 days)			
Property Portfolio	• The number of properties is assumed to be 57 properties JPR owns as of February 29, 2012, plus the acquisition of "Otemachi 1-6 Project (land with leasehold)" (tentative name) scheduled for March 12, 2012. Furthermore, the assumed average occupancy rate at end of month is 94.6%.			
	•In practice, these assumptions may vary due to such events as the acquisition of additional properties or the sale of existing properties.			
	•Operating revenues are calculated in consideration of the market environment, competitiveness of properties, tenant conditions, etc. based on the effective lease agreements as of the end of the 20th fiscal period.			
Operating Revenues	•It is assumed that there are no delinquencies and defaults in rent payments by tenants.			
	•Gain and loss on sales of real estate properties is not assumed.			
Operating Expenses	•Out of real estate rental expenses, which account for a major part of operating expenses, outsourcing expenses other than depreciation is calculated based on information as of the 20th fiscal period and by reflecting the variation elements of expenses based on the past results. Outsourcing expenses are assumed to be 493 million yen.			
	•Property taxes and city planning taxes indicate the volume to be paid during the period out of the levied volume and is assumed to be 1,070 million yen. Moreover, in general practice property tax and city planning tax levied on properties acquired are settled after prorating for the period with the previous owner at the time of acquisition, but JPR includes the amount equivalent to such settlement in the acquisition costs for the property.			
	•Repair and maintenance costs forecast to be required during the period is allocated as expenses. However, since there is the possibility that costs for repairs and maintenances will suddenly occur due to issues that are difficult to predict such as damage to the building and since it is generally an expense that varies greatly by year and do not occur periodically and other factors, it may vary greatly from the assumed expenses for repairs and maintenances for the period.			

	•Depreciation, including accompanying expenses and future additional capital expenditures are calculated utilizing the straight line method and is assumed to be 1,750 million yen.
Non Operating Expenses	•Interest expenses, interest expenses on investment corporation bonds and borrowing expenses, which account for a major part of non-operating expenses, are assumed to be 1,665 million yen.
Interest-Bearing Debt	•As of February 29, 2012, the interest-bearing loans payable is 163,005 million yen (short-term debt: 12,400 million yen; current portion of long-term debt: 24,748 million yen; long-term debt: 74,357 million yen; current portion of investment corporation bonds: 9,000 million yen; and investment corporation bonds: 42,500 million yen) and interest-bearing debt ratio stands at 48.8%.  • It is assumed that JPR will finance the acquisition of "Otemachi 1-6 Project (land with leasehold)" (tentative name), scheduled to be acquired on March 12, 2012, by borrowing funds.
Ratio	<ul> <li>It is assumed that all borrowings whose repayment will arrive during the fiscal period ending June. 30, 2012 will be refinanced, except for scheduled payment of 424 million yen. The interest-bearing debt ratio is expected to be 53.8% at the end of the fiscal period ending June 2012.</li> <li>The following formula is used in calculating the interest-bearing debt ratio in this table.  Interest-bearing debt ratio =  Interest-bearing debt / (Interest-bearing debt + Unitholders' capital) * 100</li> </ul>
Total Units Outstanding	• The 715,000 investments units outstanding as of December 31, 2011 are assumed.
	• As for distribution per unit, it is assumed that all revenues will be distributed based on the distribution methods provided in the Articles of Incorporation.
Distribution Per Unit	•There is the possibility that the distribution per unit may vary due to various factors including variation of rental revenue due to transfer of assets under management and tenants moving out, and unpredicted repairs and maintenance.
Exceeding Profit Distribution Per Unit	•Distribution exceeding the profit (exceeding profit distribution per unit) is currently not assumed.
Others	<ul> <li>It is assumed that there will be no changes in legislation, taxation, accounting standards, regulations applying to publicly listed companies, rules and requirements imposed by the Investment Trusts Association, Japan that will impact the aforementioned forecasts.</li> <li>It is also assumed that there will be no unexpected material changes in general economic and real estate market conditions.</li> </ul>
